

High Notes, Vol. 4

September 10th, 2006

Hayley Taylor

Waking

Having spent time studying both poetry and painting, playing in two different bands and having one of her songs featured in a commercial, singer-songwriter **Hayley Taylor** has finally released her debut six-song EP, the beautiful *Waking*.

Taylor, along with her backing band, create music that is rich, emotional and well-written. ('Orange Tree,' her incredible song about waiting impatiently for an indecisive lover, a listener will be instantly drawn to the steady guitar-strumming and the gentle keyboard intro. Then Taylor's voice, which is soft and smokey.

Listen:

Hayley Taylor - Orange Tree
